Subject: Letter Report for Flammability Test – Grade: PVC PIPE

Dear Mr. Mutlu,

Samples of the subject product were tested at our Northbrook Laboratories facility in accordance with the requirements of UL 94 – Standard for Tests for Flammability of Plastic Materials for Parts in Devices and Appliances - Edition 5 - Revision Date 2006/06/02.

This letter will serve to report that all tests on the subject product have been completed with acceptable results.

TEST RESULT

The following test was conducted with respective result.

- 50W (20 mm) Vertical Burning test for grade PVC PIPE: GY color, 4.2 mm thickness, the criteria of the Vertical burning test has been meet for the V-0 flame rating.

Please be informed that Underwriters Laboratories Inc. neither selected the samples nor determined whether the samples were re presentative of production samples. The test results apply only to the actual samples tested.

The issuance of this report in no way implies Listing, Classification or Recognition by UL and does not authorize the use of UL Listing, Classification or Recognition Marks or any other reference to UL on or in connection with the product or system. This test report and data are intended solely for your internal use. You cannot use this test data or UL's name or marks in connection with any product, packaging, advertising, promotion or marketing without UL's prior written permission.

This completes the work under Project 09CA24773 and we are closing the project with this letter. You will be invoiced for the charges incurred to date.

Included with this letter is a copy of the datasheets generated in this investigation.

Your business is very important to us and if there is any additional information that we may provide to you about the investigation or UL's other services, please do not hesitate to contact us.

Sincerely,

Renata Segobia
